

The Ausable Bayfield and Maitland Valley Conservation Authorities are pleased to create Source Protection Stewardship opportunities with partners including health, business, municipalities and the Ontario Soil and Crop Improvement Association (OSCIA).

Agricultural landowners living within 100 metres or the two-year time-of-travel area of a municipal well or 1 km of a municipal surface water intake can find out about stewardship education and funding opportunities by phoning **(519) 335-3557**.

Farmers are also welcome to contact the Ontario Soil and Crop Improvement Association Source Protection Program Representatives. They are:
